See "The Property" section below for additional information. The increases in UW NOI over 2016 NOI and TTM NOI reflect approximately 192,000 square feet of new leasing and the partial burn-off of free rent. In addition, UW NOI includes \$95,041 in rent steps underwritten through September 2017 and \$87,020 in straight-line rent for Citizens Bank of Pennsylvania and Allstate Insurance Company. UW NOI also includes approximately \$3.8 million in underwritten rent for four tenants, Lincoln Investment Planning, Impax Laboratories, Inc., Citizens Bank of Pennsylvania and Connexin Software, Inc., representing approximately 41.1% of net rentable area and approximately 45.8% of underwritten base rent, which have not yet taken occupancy and/or are in free rent periods for which reserves were taken at closing.
- (6) The Appraised Value / Per SF, Cut-off Date LTV and Maturity Date LTV are calculated based on the "Prospective Value Upon Stabilization" value, with an anticipated date of January 1, 2018, which assumes the burn-off of approximately \$4.5 million of lease-up costs (including tenant improvements, leasing commissions, free rent, rent loss, and expense carry) associated with tenants already in place and which have been reserved at loan closing, and also includes the appraisal's projections of property cash flows as of such date. The "as-is" value as of December 5, 2016 is \$78.8 million, which results in a Cut-off Date LTV and Maturity Date LTV of 69.2% and 60.3%, respectively.

Underwritten Rents in Place includes approximately \$1.0 million in rent for AstraZeneca Pharmaceuticals, which is currently subleasing its space to Softerware, Inc. Underwritten Rents in Place also includes \$3,767,474 in underwritten rent for four tenants, Lincoln Investment Planning, Impax Laboratories, Inc., Citizens Bank of Pennsylvania and Connexin Software, Inc., representing approximately 41.1% of net rentable area and approximately 45.8% of underwritten base rent, which are not in occupancy and/or are in free rent periods.

(5) The decrease in 2016 Net Operating Income from 2015 Net Operating Income is primarily due to two tenant vacancies in 2015. The property was approximately 79.0% occupied at the time of the sale to the prior owner. Following the sale, the occupancy declined to 42.0% as a result of the two tenants vacating. The prior owner purchased the property from a prior foreclosing lender for \$30.2 million in January 2015 as described above under "The Property"; since acquiring the property, the prior owner executed six new leases to six tenants totaling approximately 192,000 square feet and approximately \$4.47 million of base rent. The increases in Underwritten Net Operating Income over 2016 and TTM Net Operating Income reflect the new leasing and the partial burn-off of free rent, as well as the rent steps and straight-lined rent identified in footnote (4) above.

(6) Historical Occupancies are as of December 31 of each respective year. TTM Occupancy is as of April 30, 2017. Underwritten Occupancy represents economic occupancy. Occupancy includes AstraZeneca Pharmaceuticals, which is currently subleasing its space to Softerware, Inc..
